

To maintain a truly free democratic society, diversity of media information is ESSENTIAL! Concentration of ownership by large and expansive corporate interests makes this IMPOSSIBLE. Conflicts of interest and limitation of media access would be INEVITABLE. A survey showed that 70% of Americans surveyed knew nothing about the proposed ownership rule change. It has received virtually NO media attention! Case in point! PLEASE uphold your duty to help keep freedom of press alive. Americans' freedom could one day depend on it. Thank you.
